

Q SERIES PATIO DOOR SOUNDPROOF COMFORT FOR URBAN LIVING

PREMIUM ALUMINUM SLIDING PATIO DOORS ENGINEERED FOR SILENCE, INSULATION, AND MODERN LIVING

The Q Series Patio Door by bquiet Soundproof Windows delivers a quieter, more comfortable home — ideal for Toronto's busy urban environment. Engineered with acoustic laminated glass, airtight seals, and heavy-duty construction, it reduces noise, improves insulation, and enhances your home's overall comfort.

Whether you're near traffic, streetcars, construction, or busy neighbourhoods, the Q Series provides peace of mind through premium soundproofing and energy-efficient performance.

SOUNDPROOF PERFORMANCE

Highest Rated Patio Door STC 39 acoustic rating blocks most street-level noise, vibrations, and outdoor disruptions — all while maintaining a bright, modern aesthetic.

ENERGY EFFICIENCY

Built for Canadian climates, the Q Series reduces drafts, improves thermal stability, and helps lower energy costs year-round.

WHAT MAKES THE Q SERIES DIFFERENT?

We deliver certified products, trained installers, and clear, honest pricing. With reliable timelines and proven craftsmanship, Encore gives homeowners results they can trust.

ACOUSTIC ENGINEERING

Laminated acoustic glass, multi-layered frames, and precision gasket seals work together to significantly reduce noise from traffic, TTC, construction, and neighbours.

CANADIAN-GRADE PERFORMANCE

Designed for Toronto's climate, with superior insulation, weather resistance, and long-term durability — ideal for both new and older homes.

PROFESSIONAL INSTALLATION

Certified installers ensure perfect alignment, airtight sealing, and long-term performance. Every installation includes full warranty coverage and removal of your old door.
